CONFORMAL COATING DRYING CABINET

*Fast Drying. Proven Safety.
Consistent Quality.*

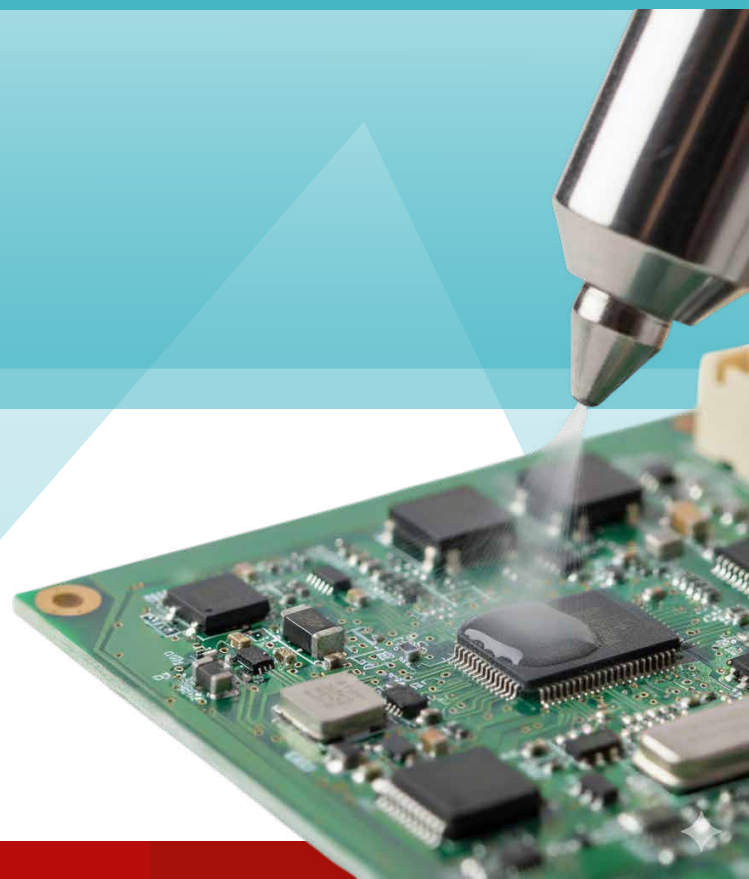

From Hours to Minutes - Precision in Every Layer.

Combines controlled heat, dehumidification, and safety features to deliver fast, uniform drying and reliable coating quality every time.

*The X-Treme Series Conformal Coating Drying Cabinet provides fast, uniform drying with programmable temperatures up to **125 °C** and optional **humidity control**, supporting a wide range of coating types. By combining **simultaneous dehumidification and baking**, it reduces traditional 24–48 hour drying cycles to just **1–2 hours** without compromising quality.*

*For safety, the integrated extraction unit directs solvent vapors to facility ventilation systems, protecting operators, while **UV-A inspection lighting** supports quality assurance. This delivers a precise, efficient, and safe drying solution for demanding production environments.*
